

ONIX CLASSIC SERIES

This is the most comprehensive range of products from ONIX - with a total of seven products. These include three amplifiers, two CD players, a DAC and a network player. This is a very well priced range and designed to meet the needs of the most discerning users. Styling includes a black glass front panel with gold control knobs.

CD 15A CD PLAYER

A CD player with excellent features, this CD 15A includes a Burr-Brown PCM 1796 24/192kHz asynchronous USB DAC. It will let you listen to your CD files or to FLAC files with a sound quality that will surprise you.

In order to utilise the USB input it is necessary to install driver software.

The software is supplied with the product and the instructions are very simple, adequately described in the accompanying manual.

The styling is simple, yet elegant and this player partners well with either the RA125 or A65 amplifiers.
