Duo

AM/FM Stereo Radio

Enjoy room-filling high-fidelity sound from a space-saving system that will fit just about anywhere — your family room, kitchen, bedroom, office, or all of the above and more. With a precision AM/FM stereo tuner for noise-free reception of even distant radio stations, and patented technology for rich, satisfying bass performance at any volume level, Horizon Duo delivers big-system performance in a stylish, compact package. With dual alarms and a wrap-around S-n-o-o-o-o-z-e bar, Duo also exhibits impeccable bedside manners.

Boston Horizon Duo

"Honey, I shrunk the hi-fi."

The unique shape of Horizon Duo-i is one key to its exceptional performance. Left and right full-range speakers are isolated from each other in separate acoustic chambers for rich, distinct stereo sound. Another key is proprietary BassTrac® audio processing for clean bass at all listening levels. The two technologies work together to deliver stunningly realistic reproduction of your favorite music — in any genre, anywhere.

What it means to be from Boston.

First and foremost, Boston is an engineering company, and every Boston system is optimized to meet the highest performance standards (our own). Of course, performance is only one measure of value. So we're careful to build all our products with strict attention to everything from the choice of materials to the fit and finish. It's how we've been exceeding the expectations of serious music listeners for nearly thirty years.
