

play anywhere. play smart.

SoundWare in White

SoundWare

High Performance Indoor / Outdoor Speaker
For great sound anywhere

SoundWare is compact, high performance audio that belongs in a category of one. With a unique polyhedron shape they didn't teach you in geometry class, and pivoting mounting brackets, SoundWare is designed to fit anywhere music wants to be.

Boston SoundWare

any angle
any surface
anywhere

Indoors or outdoors

Made of weather-resistant materials, SoundWare is built to withstand scattered showers, tropical depressions, pretty much everything Mother Nature is likely to throw at them.

What it means to be from Boston.

Many manufacturers design their products around third-party, off-the-shelf parts. Boston Acoustics engineers every component of every system to meet the highest performance standards (our own). Of course, performance is only one measure of value. So we're careful to build all our products with strict attention to everything from the choice of materials to the details of fit and finish. It's how we've been exceeding the expectations of serious listeners for nearly thirty years.

Specifications

Frequency Response 90Hz-20kHz (± 3 dB)

Recommended Amp Power 15 – 100 watts

Nominal Impedance 8 ohms
