

CRITERION - TS 350

The successful CRITERION TL series has been enhanced with a new small floor-stander. The **TS 350** is slightly smaller than its sister speaker, the TS 300, which has garnered outstanding test results, but it still features a long, fully developed transmission line. It is a two-and-a-half-way design based on two 170 mm drive units, i.e. the one driver is a pure bass unit fitted with a stiff GREYCONE® cone, and only radiates the bass range. The upper drive unit, in contrast, is designed to act as a bass / mid-range unit. This is a very sophisticated driver whose GREYCONE® cone is complemented by additional sealed damping slots, which prevent any partial oscillation and resonance.

These characteristics totally eliminate coloration and hardness in the reproduction of the important mid-range, with the result that the speaker sounds open, unrestricted and dynamic even at high levels. As in all TL loudspeakers, the **TS 350** employs our superb annular tweeter for the high-frequency range; this unit's very high limit frequency and dynamic range ensure silky-smooth treble reproduction with ultra-fine resolution. The sophisticated crossover unit optimises the frequency response as well as the drive units' cone travel and peak handling characteristics.

Specifications

<i>Nominal power handling</i>	120 Watts
<i>Music power handling</i>	160 Watts
<i>Impedance</i>	4 Ohm
<i>Frequency range</i>	32 – 45000 Hz
<i>Sensitivity 1 W / 1 m</i>	86 dB
<i>Drive units (bass)</i>	1 x 170 mm
<i>Drive units (bass-mid-range)</i>	1 x 170 mm
<i>Drive units (high-frequency)</i>	1 x 35 mm
<i>Crossover frequencies</i>	300 Hz, 2200 Hz
<i>Dimensions H x W x D</i>	95 x 21 x 32 cm
<i>Weight</i>	22 kg
<i>Finishes</i>	Bird's-eye maple wood veneer, Cherry stain, Walnut, Silver, Black

Unfortunately foto's mostly don't look the same on different pc-screens. Therefore the pictures can only give you a rough impression of the colours.
