

Edge3

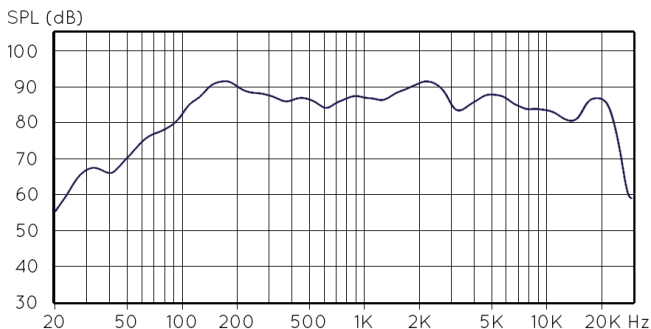

High Performance Invisible Loudspeaker

DATASHEET V1.0

amina

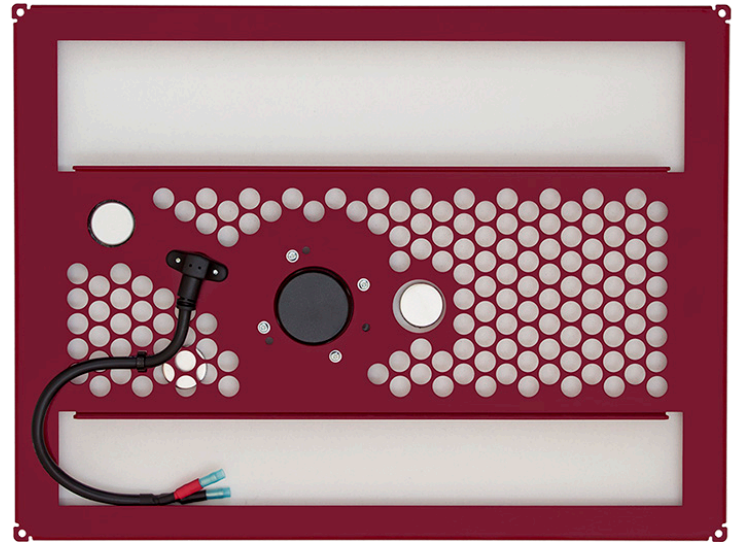

Product Description

Repackaging the award winning Amina Edge invisible loudspeaker into a smaller footprint design, allowing installation where there is reduced stud spacing. Using the same tapered perimeter glass resin core as the larger Edge5 and Edge7 loudspeakers, the Edge3 is primarily designed for dryline installation where there is no wet plaster skim coat. Using a lightweight neodymium core exciter, the Edge3 provides high performance at an entry level price point. Can be supplied with an optional high impedance multi-tapped transformer, making it an ideal solution for commercial BGM systems. When paired with a subwoofer, the Edge3 provides a high quality invisible sound solution.

Specifications

Nominal impedance	8 Ohms
Power handling (100 hour continuous/peak)	30W/60W
Sensitivity	86dB 1m/2.83Vrms
Frequency response	90Hz - 24kHz (± 6 dB) mounted in Backbox CV300
Electrical connection	Blue butt-splice crimp terminals (14-16 AWG)
Dimensions	300mm x 400mm x 35mm
Product weight	0.97Kg
Fixing requirements	BackboxCV300 (mounting blocks available on request)
In-line protection unit	APUi30C, APU-RS8iC or APU-RS16iC
Manufacturer limited warranty for residential applications (commercial applications)	10 years (5 years)

Example Applications

Medium power commercial and residential invisible sound solutions. Designed to be installed into dryline finishes, but may also be used as a post-plaster retrofit where there is a wet skim application. Designed to be paired with an ALF40 bass enhancer.

Compatible Accessories

BackboxCV300, Firehood300, Mounting Blocks, Shim Kits, APUi30C, APU-RS8iC, APU-RS16iC, ALF40, ALF80, ALF120. Can be fitted with high-impedance 100V/70V transformers.
