

AUDEZE LCD-XC

High-performance closed-back planar magnetic headphone

All the Benefits Plus Privacy

The closed-back LCD-XC offers all the benefits of the LCD Collection's open designs and isolates the listener while reducing ambient noise. No sound escapes the earcups.

Easy to Drive

Like all Audeze headphones the LCD-XC is equipped with Fazor technology and is sensitive enough to be driven directly by portable players like iPods, iPhones, and the better smartphones but an external amplifier produces better results.

Improved Focus and Clarity

Fast, dynamic and accurate sound using our proprietary technology that eliminates breakup modes found in other designs and improves focus and clarity.

LCD-XC with Bubinga wood cups in black aluminum enclosure with black lambskin

Features and Specifications

Style	Closed circumaural
Transducer type	Planar magnetic
Magnetic structure	Proprietary self-closing design
Magnet type	High-grade Neodymium
Diaphragm area	39.8sq cm (6.17sq in)
Maximum power	15W (for 200 ms)
Optimal power	1-4W
SPL	> 130dB with 15W
Frequency response	5Hz - 20kHz extension to 50kHz
THD	< 1%
Impedance	20 ohms
Efficiency	95dB / 1mW
Weight	650g
Cable length	2.5m (8.2 ft)
