# ZENSOR VOKAL

The centre loudspeaker covers an essentially important sound zone, since this is where the majority of dialogue in movie soundtracks is to be found. ZENSOR VOKAL is engineered to cover this zone and thereby establish a truly realistic voice- and surround experience.

The sonic integration of ZENSOR VOKAL, which should ideally be placed on a shelf below your TV screen, is highly convincing as is the voice matching to the other models of the range. For high-powered surround solutions, ZENSOR VOKAL is a perfect match for the DALI SUB E-12F.

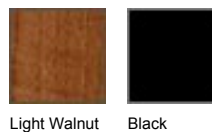

At best, when watching a great movie, you forget time and space. ZENSOR VOKAL is created to complete just that sonic illusion of being there yourself.

## SPECIFICATIONS

Frequency range (+/- 3dB) [Hz]:	47,0 - 26.500,0
Sensitivity (2,83 V/1 m) [dB]:	88,5
Nominal impedance [ohms]:	6
Maximum SPL [dB]:	109,0
Recommended amplifier power [W]:	30,0 - 120,0
Crossover frequencies:	2.400 Hz
High frequency driver:	Soft textile dome
Low frequency driver:	Wood fibre cone
Enclosure type:	Bass reflex
Bass reflex tuning frequency [Hz]:	45,0
Connection input(s):	Single wire
Recommended placement:	Above/below TV/Screen
Loudspeaker type:	Center speaker
Magnetic shielding:	Semi magnetic shielded
Max loudspeaker dimensions incl. base and grille	161 X 441 X 288
Loudspeaker weight including base and grille [kg]:	6,8

## AVAILABLE FINISHES

Light Walnut    Black
